Art Unit: 2815

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1, 2, 7-13 are rejected under 35 U.S.C. 102(a) as being anticipated by Yee et al.

Yee et al shows in for example figures 5D and 5E, a frame 18, a chip 2 inside said frame, a plurality of leads 11. figure 5E shows the second lower surface of the lead split by a middle grooved section 14 which formed a horizontal third surface and where a first outer region 13 is between the frame and the groove and a second inner region (another 14) is show between the third surface and the inner end of the lead. A recessed forth surface is shown at the tip of the inner lead.

Claims 1, 2, 7-13 are rejected. Claims 3-6, 14, 15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Claims 16-20 are allowed.

Hu et al (2003/0073265, 6, 611, 047), Su et al, Chuang, Huang (6, 545, 332 and 6, 198, 171), Kobayakawa, Shibata, Glenn et al are cited to show leads with grooved portions.
